Brief Industrial Profile of North Tripura District

1. General Characteristics of the District

The North Tripura District has a geographical area of 1,422.19 Sq. Km and is divided into three sub-divisions, namely, Dharmanagar, Kanchanpur and Panisagar. For the purpose of developmental activities it is divided into six Blocks namely Panisagar, Kadamtala, Damcherra, Dasda, Jubarajagar and Jampui Hill. There is one Nagar Panchayat at Dharmanagar. Main tribes of the District are Tripuri, Kolo, Halam, Chakma. Two Hill ranges, namely Jampui, Sakan run almost parallel to each other in the District. "Betling Chip", the highest point of the state (939m.ht.), is located in the District in the Jampui range. Deo, Manu, Longai and Juri are the main rivers.

Tripura a hilly, picturesque, princely state was first conquered by the Britishers in 1761. However, no political agent was appointed till 1871 and the Maharaja ruled hill territory " Hill Tipperah " almost independently. The State acceded to the Indian union on 13.08.1947, the agreement of merger being signed on 09.09.1949. The administration was formally taken over on 15.10.1949. Tripura, initially a one district state, was trifurcated into three Districts w.e.f. 01.09.1970. The North Tripura District started functioning in the office of the Sub-divisional officer at Kailashahar and partly at Kumarghat, later the whole office was shifted to Kailashahar. The Collectorate was shifted to the newly constructed complex at Gournagar on 13.11.1987, subsequently North Tripura District has been bifurcated and a new District namely "DHALAI DISTRICT " has been inaugurated on 14.04.1995 with district head quarter at Ambassa.

1.1 : Location & Geographical Area.

The district is situated approximately between longitude 92 degrees 19 minutes and between latitude 24 degrees 36 minutes. Total area of the district is 1422.19 sq.kms. The district headquarters is located at Kailashahar.

According to the [2011 census](#) North Tripura district has a [population](#) of 693,281,^[1] roughly equal to the nation of [Bhutan](#)^[2] or the US state of [North Dakota](#).^[3] This gives it a ranking of 503rd in India (out of a total of [640](#)).^[1] The

district has a population density of 341 inhabitants per square kilometre (880 /sq mi) .^[1] Its [population growth rate](#) over the decade 2001-2011 was 17.32%.^[1] North Tripura has a [sex ratio](#) of 967 [females](#) for every 1000 males,^[1] and a [literacy rate](#) of 88.29%.^[1]

In 1988 North Tripura district became home to the Rowa [Wildlife Sanctuary](#), which has an area of 0.85 km².^[4]

Of the total geographical area of Tripura, 76% can be marked as of “Tertiary” origin and 24% belong to Quaternary period; none of these contain any major mineral resource. A GSI Report of 1982 provide a list of Non-metallic and metallic mineral vis-a-vis their location or otherwise in Tripura (at page-6) indicating the poor profile.

The current production of natural gas is estimated at one million cubic meters per day. The available figure for 1990-91 to 1997-98 shows a fast increasing rate of production from 70 million tonnes per year in 1990-91 to 2.7x in 8 years reaching 196 million tones in 1997-98.

1.4 FOREST :

The state of Tripura, with a geographical area of 10491 km² is predominantly hilly (60%) & is surrounded on three sides by a deltaic basin of Bangladesh. The state is situated between 22o57' & 24o32'N and 91o10' & 92o20'E with tropic of cancer passing through it. The State is situated in the south-western extremity of North-East region of the country. It shares border (1001 km in perimeter) with Bangladesh, Assam and Mizoram. International border with Bangladesh is 856 km, which is almost completely open and porous.

Forest is an integral part of the culture and tradition of Tripura. It also maintains the environment, biodiversity, land, soil, water, air regimes. Any imbalance in equilibrium of the above components affects the system adversely and has an adverse impact on human life.

The State Forest Department manages the official recorded 6294.287 sq.km. of forest area in the state. The total forest area of North Tripura is 1223.31 sq.km. The revenue from forestry sector in 2010-11(Tripura) is around Rs. 714.18 crores. The State is endowed with rich flora and fauna and therefore, growing of medicinal plants and herbs as well as other forest based industries including traditionally rich handloom and handicrafts industries have an immense potential to develop.

1.5 Administrative set up.

The North Tripura District is divided into three sub-division, namely, Dharmanagar, Kanchanpur and Panisagar. For the purpose of developmental activities it is divided into six Blocks namely Panisagar, Kadamtala, Damcherra, Dasda, Jubarajnar and Jampui Hill.
